## Sports Premium Grant Expenditure Report To Parents / Governors 2015/2016

The 'Sports Premium Grant' is a new funding package that was announced by the government in March 2013. This grant provides schools with additional money over the next two years to support the delivery of Physical Education and Sport in school.

During the financial year of 2015-2016 we have been allocated £9,749, we have received so far £4,862.79 of that amount. We have spent £3,095.79 with the remaining amount being carried over into the next financial year.

### HOW DO WE INTEND TO USE OUR 'SPORTS PREMIUM' FUNDING?

Our goal over this last year has been to enhance the sports provision for children in our school by allowing them to access as many different sporting opportunities as possible. This will help us to continue to build upon what is already established and create a sporting legacy for the school. We have done this by:

- Bringing in high quality and established external companies and by continuing to make links with local clubs.
- Continuing to work with Leicester Tigers and Leicester City.
- Competitive Sports and intra school sports
- Active lifestyles (through educating children about having a healthy active lifestyle and created links the cooking curriculum)
- Continuing to team teach with staff to broaden their knowledge and equipping them with the relevant knowledge and skills to teach their own PE lessons
- We are focussing on ways to develop the new curriculum, for the younger year groups with their fundamental movement, and have introduced 'Big Moves' intervention in EYFS.

### HOW HAVE WE ACHIEVED THIS SO FAR?

#### FROM SEPTEMBER 2015- APRIL 29<sup>TH</sup> 2016 WE HAVE SPENT

We have made vital links with local clubs/organisations such as:

- Allexton football Club ( after school football club)
- Leicester Riders
- Leicester Tigers
- Leicester City
- Leicestershire Badminton association

- Humberstone Heights golf club
- New College Leicester
- And running four different sports clubs at lunch throughout the week.

Our sports coach runs a 'fit for life' club once a week with a different year group each half term to educate through cooking, food tasting, games and exercise the importance of a healthy diet and lifestyle.

Our sports coordinator is team teaching with staff and encouraging them to teach in all different areas, from gymnastics to outdoor adventure.

### **WHAT IS THE BENEFIT?**

This has helped to encourage the children to want to take part in various sports at lunch and out of school. The enhanced profile of sport in the school has increased sport participation.

- Funding has also been spent on competitive sports, CPD for leaders, entering children into festivals, tournaments and buying into the Leicester City SSPAN (school sports partnership)

### **WHAT IS THE BENEFIT?**

By furthering the PE teachers and the PE coordinators knowledge it enables them to deliver a wide variety of sessions in an effective way. Also it enables the team to relay back to staff members about what they can do to improve their teaching of PE and provide resources for staff and children to use. The benefit of buying into Leicester City SSPAN is simple; we are entering the children into more competitive sport, helping their social skills, self esteem, confidence and enjoyment of activity.

- Funding has also been spent on resources and equipment, with a focus on enriching lunchtime activities.

### **WHAT IS THE BENEFIT?**

Making sure we are using the correct equipment for our PE lessons, and having enough resources for classes of 30+. Also buying basketball hoops, and an outdoor ping pong table for break times and lunch times, as well as a PA system and various other equipment, has helped the children to become more healthy and active.

- Funding has also been used to buy in specialist practitioners providing workshops and to take the children to courses that are being delivered externally. We have had many specialists teaching classes and groups of children coming in to increase our hours of active participation but also to give them a wider variety of activities, some of these are:
  - Tennis, badminton, table tennis, netball and hockey lunch clubs
  - Clubbercise
  - Golf ( Lunch club)
  - Leicester Tigers
  - Badminton/Tri golf with professional coaches

## **WHAT IS THE BENEFIT?**

This has massively helped with all aspects we have hoped to cover, children are more active, and the buzz / enthusiasm/motivation is continuing and growing. Children who were disengaged in PE have now become active, and they are keen to be involved in a wide range of sporting activities. All of the above has increased not only children's health benefits but raised confidence and self- esteem.

## **WHAT DO WE PLAN TO USE NEXT YEARS MONEY ON?**

We are looking to spend some of the money next year to revamp our swimming curriculum, by extending our links with New Parks swimming club, and continuing to try and meet the National KS2 swimming expectations.

There will be a launch of survey software called 'me and my survey' which will help us to collect information of how much effect all of the things we do are having, and if they are working.

There will be more workshop days for the children, and we will continue to purchase more interesting fun practical equipment to enrich the children's learning in PE.

The aim is to make PE integrated into other areas of the curriculum by providing CPD to class teachers to enable them to run cross curricular sessions every half term.

An update to this report on future spending will be added.
