

Welcome to Home Learning from Forest Lodge Primary School

Our Rationale at Forest Lodge

We appreciate how important the links between Parent/Carers and teachers are and the need for us to work together. We believe that it is important that children bring home 'activities' or 'work' from a fairly early age to help them learn, to reinforce basic skills and for them to see parents and teachers working together.

Learning at Home Book

The Learning at home book will provide the opportunity for your child to show their creativeness through their homework. The range of home/school tasks will vary throughout the school, according to the age of the child.

What to expect

- Your child will come home with a grid that is stuck in their 'Home Learning Book'. Within the grid there will be a range of different activities for the term.
- Your child will decide on what task they would like to start with chosen from one of the grids. A minimum of 1 task is to be completed over a fortnight. As pupils work through the chosen tasks these need to be ticked off or coloured on the grid.
- The Home Learning Book will be handed into the class on a Friday every fortnight. The dates will be placed above your grids as to when it is due.
- We hope you can help in providing a positive and happy attitude towards homework with your child and making it a fun loving creative experience. Encourage your child to follow their own ideas and interests-this is time for them to explore in the direction they choose to go in and this is likely to bring the best results .

Thank you from all staff at Forest Lodge Primary
